Victor Valley Transit Starts Service to CSUSB

Starting Thursday, July 1, 2004, Victor Valley Transit Authority will initiate service to California State University San Bernardino. While VVTA did have to reduce the number of commuter round trips from 15 to six, the campus stop will be an addition to VVTA's current Victor Valley Commuter service to San Bernardino.

According to VVTA general manager Kevin Kane, the addition of the CSUSB service was intended to provide enhanced educational opportunities for Victor Valley residents. VVC buses will now stop at the CSUSB bus stop adjacent to parking lot C on University Parkway.

"The Victor Valley Commuter isn't just a great way to get to work," notes Kane. "The service opens up a wide variety of travel possibilities, from higher education to leisure activities, as well as shopping or medical appointments."

The VVC operates two routes providing weekday morning and evening service linking the Victor Valley with San Bernardino, Rancho Cucamonga, and Ontario. The service is a popular travel option for workers in these cities, as well as the many commuters who connect to Metrolink.

Victor Valley Transit Authority is a regional transit service providing fixed-route service and Direct Access for seniors and persons with disabilities in the communities of Adelanto, Apple Valley, Hesperia, Victorville, as well as unincorporated portions of San Bernardino County.
